

Federal Electronics Honored with Raytheon 2007 Supplier Excellence

Federal Electronics (www.federalelec.com), a leading provider of electronic manufacturing services (EMS), has been selected as a recipient of the 2007 Supplier Excellence 3 Star Award from Raytheon Integrated Defense Systems (IDS).

Aug. 5, 2007 - [PRLog](#) -- CRANSTON, R.I. – August 6, 2007 – Federal Electronics (www.federalelec.com), a leading provider of electronic manufacturing services (EMS), has been selected as a recipient of the 2007 Supplier Excellence 3 Star Award from Raytheon Integrated Defense Systems (IDS).

Federal Electronics, a supplier to Raytheon IDS for the past 6 years, was honored with the award for the company's exemplary performance and contribution to the success of Raytheon IDS and its customers.

Federal Electronics Vice President Ed Evangelista and Account Manager Chris Heywood were presented with the award in a ceremony at Raytheon IDS in Tewksbury, Mass.

“We are honored to have been selected by Raytheon IDS for this prestigious award,” said Evangelista, “The men and women of the armed forces expect the products we produce to work flawlessly the first time and every time in critical and dangerous missions. We are proud to be a part of the Raytheon supply chain, and this award is a testament to the hard work and dedication of our employees. We look forward to continuing our work with Raytheon in the coming years as we remain committed to Mission Assurance.”

Raytheon IDS is a leader in Joint Battlespace Integration and provides solutions to organizations including the U.S. Missile Defense Agency, the U.S. Armed Forces, and the Department of Homeland Security.

Based in Cranston, Rhode Island, Federal Electronics is a vertically integrated EMS provider of printed circuit boards, copper interconnect assemblies, fiber optic interconnect assemblies, and functionally tested, higher level/system level assemblies.
