

Shini USA Portable Air Cooled or Water Cooled Portable Chillers

– Shini USA the plastics division of Budzar Industries, Inc. introduces the new Shini USA Air and Water Cooled Portable Chiller.

April 8, 2008 - [PRLog](#) -- The Shini USA Portable Air and Water Cooled Chillers utilized mainly for injection molding are off the shelf, and are ideally suited for all plant environments and industrial processes.

Designed to circulate a fluid medium for continuous process cooling between 42° to 65°F the Shini USA Portable Air or Water Cooled Chiller System is constructed with proven standard components such as a Copeland Scroll Compressor, Hirshman Hot Gas By-Pass Valve and Liquid Line Solenoid Valve, Alco Thermal Expansion Valve, along with a Non-Proprietary Controller. Other construction elements include Separate High and Low Refrigeration Liquid-Filled Pressure Gauges, Automatic Fill Valve, Oversized Air Cooled Condenser for Low Head Pressure and Capacity, High and Low Pressure Switches, Phase Monitor and an Adjustable Freezestat Switch.

The Shini USA Portable Chillers with Copper Tubing on all Instruments and Gauges and Heavy-Duty Powder-Coated Cabinet are engineered and designed for durability and to stand the test of time. The Shini USA Process Chillers are built with large industrial casters for durability and are easily moved between industrial process applications. The Shini USA Portable Chillers which are in-stock and ready to ship are available in capacities from 3 to 40 tons with either 230 or 460 voltage.

The Shini USA Portable Air-Cooled and Water-Cooled Chillers feature:

- Copeland Scroll Compressor
- Multi-state centrifugal stainless steel pump
- NEMA 1 electrical enclosure
- Hot Gas By-Pass
- Stainless steel tank
- Non-ferrous construction
- Diagnostic lights on panel
- Powder coated cabinet
- Control panel disconnect switch

Shini USA, the Plastics Division of Budzar Industries Ind., combines 50 years of experience in the plastics auxiliary machinery market by combining the best in worldwide engineering, design and support insures plastic processors the best quality at a maximum value when buying our products.

Shini USA provides a full range of top quality products including:

- Low Speed Granulators
- Central Granulators
- Beside the Press Granulators
- Portable Air-Cooled Chillers
- Portable Water-Cooled Chillers
- Temperature Control Modules (Hot Water Units)

###

Since 1975, Budzar Industries Inc., has earned a reputation for quality and ingenuity in the design,

engineering, and manufacturing of temperature control systems. Today, Budzar Industries systems can be found throughout the world bringing accurate temperature measurement and control to the production of: pharmaceuticals, chemicals, petroleum, plastics, rubber, paper, power, steel, and food industries.
