May 30, 2008 - [PRLog](#) -- CarWallpaper.pk, in one sentence, is an online repository of car wallpapers, one of the biggest of its kind you could find in the web. The car wallpapers are available in various resolutions – such as 800x 600 - 1024x768 - 1280x1024 and 1600x1200 – so that one could download wallpapers according to their desktop resolutions. The website seems to understand what netizens expect from the wallpapers they download online.

To make matters simple for visitors, CarWallpaper.pk presents the car wallpapers models as thumbnails, and one could set them as his/her desktop wallpaper by simply right clicking on the image and choosing 'set as background' on the larger image that opens subsequently. The different cars/makes are provided on the left side menu, so that choosing one's car of choice is a simple and straight forward task. The latest car models are listed under 'most recent updates' in the home page itself.

If you assume that the website is just about car wallpapers only, think again. The website features much more than car wallpapers, and this include a link to a full fledged car blog, posted by experts in the trade and information on the latest car shows scheduled (both under 'Car Mania'), latest car related news from around the world, and car videos, which features funny car crashes, car races, accidents, burnouts, and car drifting. Also, CarWallpaper.pk includes a video car review section, which shows the detailed analysis of various car models with the commentary from seasoned auto experts.

Apart from all these, at the bottom left menu of the website is a collection of links to various car related resources such as car parts, auto tuning, wallpaper sites etc.

Overall, the website offers everything car lovers expect from a wallpaper website. In fact, it tries to go farther beyond mere wallpaper downloads to provide the curious netizens useful information about car and car related topics, car reviews, news, info on car shows, and even videos to tickle their funny bones. Also, the car wallpapers website does not include any junk information or link in its webpage unlike many other wallpaper download sites that stuffs its pages with graphical ads and pop-ups linking to other sites. All you could find inside its pages is useful and relevant information only.

If you have not visited CarWallpaper.pk yet for your wallpaper downloads, do it now. It is possible that you might not have come across such a website before in the web. In other words, from what you find in its pages, you would like the car wallpapers website for sure.
