

Attack! Emergency! Give Your Employees The Ability To Call For Help Wirelessly !

Emergencies happen in all types of businesses. Give your employees the ability to wirelessly call for help.

Oct. 13, 2008 - [PRLog](#) -- Assistive Technology Services is proud to announce a new product line to address small business employee security.

Business Emergency Alert-

Each employee can carry either a necklace panic button around their neck or in their pocket or wear a wrist watch panic button.

Press the button and the portable buttons send a wireless signal to the system.

The system calls up to 4 emergency numbers, even 911 !

Electrically powered system with battery backup.

NO MONTHLY FEE- you buy it, you own it.

Great for:

DAYCARE
SCHOOL
CHURCH
BUSINESS
RESTAURANT
CLINIC

Virtually ANY Business!

What's included:

- 1 - Emergency Alert Dialer Unit
- 3 - Fully Functional Wrist Watch Panic Buttons
- 3 - Wireless Heart Necklace Pendants

http://assistivetechservices.com/buy/Personal_Security_Home_Automation/Business_Emergency_Alert_345489.aspx

Included with the Business Emergency Alert is (3) Heart Pendants. Simply push the Emergency Call button, holding it down for 4 seconds. It will send a RF (radio frequency) signal to the main console, which will trigger an alarm and call your 4 numbers in order for emergency help.

You Also get 3 Fully Functional Wrist Watch Panic Button. It's A Watch but it is also a Panic Button. It

operates exactly like the heart pendant with a 100 foot range. This Wrist Watch Panic Button is an Assistive Technology Services exclusive.

- The system calls up to 4 emergency numbers or 911 instead of a monitoring company.

- Save money - system works right out of the box with no monthly fees to pay.

- No wiring or installation fees - set it up yourself with ease.

Wireless one-touch help - heart-shaped remote can be worn around your neck or carried in your pocket.

- Listen in - hear what's going on when the system calls you.

Loud Alarm - so others will be alerted when help is needed

Each unit can have up to 6 panic buttons assigned. If you need more than 6 panic buttons an additional unit can be purchased.

Multiple units will not interfere with each other.
