

Best Value on the GE Simon XT Wireless Security System

The GE Simon XT is a full-featured wireless home security system which is installed in minutes, yet delivers years of dependable protection for you and your family.

May 13, 2009 - [PRLog](#) -- General Electric has made the 80-649-3N-XT - GE Simon XT Wireless Security System with family in mind from its easy to arm and disarm mode to its latch key feature.

The GE Simon XT is an inexpensive, yet quality made system that offers up to 40 zones of burglary and fire protection.

This Simon XT kit includes the control panel and three wireless door and window sensors, plus one motion detector that is immune to pets 40 pounds or under. The control panel is appealing to the eye and has a large backlit LCD display. There are also emergency fast action keys and a microphone for emergency 2-way VOX communication with a monitoring service representative.

Within the kit is a 4-button key fob as well. You can enjoy the convenience of this remote by pushing just one button to arm and disarm the system. To disarm the system without the remote, simply hit the disarm button and punch in your code. There is 1 master access code and 8 programmable user access codes of 3 to 6 digits.

The Simon XT supports off-premise telephone control to arm and disarm the system, check system status, activate no-entry delay, or activate the latchkey feature. Did your teenager meet curfew? Find out with the latch key option which will notify you if your child doesn't disarm the system within a set time.

The kit also include a back-up power supply that keeps you covered and the system operating during power failures and so forth.

Other features of the 80-649-3N-XT - GE Simon XT Wireless Security System:

- Chime feature for monitoring door, window, or motion activity
- Meets SIA False Alarm Standards
- 100-event buffer with time-and-date stamp
- Expansion options – Internet-based interactivity (with third-party providers)
