

A P E X GLOBAL WIRELESS Bad Credit No Contract Mobile Phone Monthly Plan No Credit Check, No Deposit

Bad credit no contract mobile phone, monthly talk, text, data plans provides hope for all with bad credit rating. With this organization the customers can get cell phone easily without paying security deposit and service is on a name brand network

June 21, 2009 - [PRLog](#) -- Are you like the millions of other Americans who made a goal this year to reduce household monthly expenses by eliminating either a residential landline telephone or cellular phone?

In order to meet your goal to reduce expenses you eliminated your cell phone service but quickly found out that your active lifestyle, family commitments, business needs and helping friends simply would not allow you to do without a cell phone.

So to meet your goal you decided to go with one of those cell phone service providers that make promises of unlimited talk, text, picture mail for a low monthly flat fee to only find out

- Coverage area is bad,
- You are being billed for roaming charges because you made a few calls outside their "Nationwide Coverage Area" Plus...
- You found out couldn't use the phone everywhere you need to,
- You can never seem to complete a conversation because the calls kept dropping,
- You missed out on the important business call or job opportunity
- You missed calls from a close friend or relatives so many times you just want to throw your cell phone out a window!

Even though the cell phone service provider that promised the unlimited coverage and unlimited service didn't live to their promises you are determined to meet your goal of reducing household expenses...good for you!

But wait! On top of the bad unlimited service you have chosen...now you find out after going back to your former name brand cellular provider that your credit score has dropped and you now need a large security deposit to restore service with them...as if you didn't have enough problems to deal with...

We know this situation all too well...we hear it from proud hard working Americans each and everyday

Americans who are asking these questions:

- Are there any cell phone companies who offers cell phones to people with bad credit and do not require a credit check or security deposit?
- Can I get a cell phone without a contract or credit check that's not a pay as you go phone, BOOST, Metro PCS, Cricket, Virgin Mobile or anyone like them?
- How can I get a Free cell phone with no credit check if I have damaged credit because I filled bankruptcy?
- Have you heard of any companies that actually offer a no contract, postpaid cell phone monthly plan where I don't have to pay a major deposit or need a credit card to make payment?
- Is there any way to get the major cell phone companies to waive the deposit if you have no credit or really bad credit?
- Does anyone know of anyway around those stupid daily access fees charged by the prepaid cell phone

services...they seem to charge on days I don't use my phone and the fees are eating up my minutes for the days I need to use it!

Besides reading the questions above and more like them on numerous, blogs, forums, ask.com, yahooanswers.com, Googledocs.com, twitter.com, leapfish.com etc...we've also heard the sometimes harsh reality answers to these questions as well. Which we can imagine can leave a person in a state of despair that will lead us to ask the question What am I going to do now?

Well, at the end of the day that's the question we asked ourselves.

What are we going to do to help Americans who work hard but...?

- Have bad credit for many reasons, mostly situations beyond their control, divorce, separation, job loss leading to credit card debt charge offs, bankruptcy, repossession, foreclosure, etc...
- Have applied for cell phone service with the major brands to be told they have to pay a 300, 400, 800, 1000+ security deposit
- Have tried the unlimited cell phone services to find out the service just doesn't work for their specific needs

Here's our answer...If the service that's needed does not exist...Then we will have to create it and We did for the thousands of Americans that need and want the service

Welcome America to A P E X GLOBAL WIRELESS
