

## **"How To Build An Attractive And Affordable Chicken Coop That Makes Your Neighbors Green With Envy!"**

*Finally you'll get the help you need to build a chicken coop - Fun, Easy, Professional. Easy step-by-step instructions that make building a chicken house a pleasant adventure.*

**Aug. 20, 2009** - [PRLog](#) -- Unfortunately, building your own chicken coop is not as easy as hammering some wood and wire mesh together. You need to take into account materials, insulation, ventilation, lighting, positioning, nesting, perches, litter collection and protection from the elements and other animals. ( By the way, you'll get more info at <http://howtobuildachickencoopnow.blogspot.com> )

But don't you worry. Because I introduce to you my friend Bill Keene, a sought after authority on the subject how to 'build a chicken coop / chicken house plans.'  
(visit <http://tinyurl.com/qeqe6d> )

Fortunately for you, using his many years of experience in poultry farming, he created an easy to follow guide to building your own perfect chicken coop. It doesn't matter if your a master carpenter or a total beginner, if you require a big or small coop, or if you have a small or big budget.

Everything is covered in easy to understand step-by-step instructions!  
Introducing his incredibly successful and valuable eBook "Building A Chicken Coop"...

Here's just a few of the many things you'll find in your copy:

How to build a self enclosed mid-sized chicken coop for up to 4 chickens using for just a small fraction of the price of buying a new one...

How to easily breed chickens yourself and take care of the baby chicks so you have a self sustaining flock...

The 9 daily, monthly and yearly chores you must perform to keep your chickens healthy, happy and laying

eggs...

The 8 foods that can be potentially harmful if you give them to your chickens...

Learn what to do if your chicken gets sick and the 2 most common health problems and how to cure them...

And much much more information and plans...

If you are considering keeping chickens in your back yard, you must read this book. Whether you have a tiny courtyard or acres to play with, Keene's advice will stand you in good stead and help you build the right chicken coop.

The focus of the book is on being well-prepared for your flock before they even arrive. Bill ensures that you consider every issue before you spend a cent on birds, feed or equipment.

He discusses which species is appropriate for your garden, what they should eat and, as the title suggests, how you should house them. Anyone with basic do-it-yourself tools and a patch of land could follow his instructions. The drawings and diagrams are easy to interpret and the lists of materials and tools needed are very helpful.

Trust me on this one - you are in good hands. <http://tinyurl.com/qe6d>
