

## **Fat Burning Furnace - Fat Burning Furnace Scam Expose**

*Fat Burning Furnace Review – Is Fat Burning Furnace a Scam ? No, Fat Burning Furnace is our favorite fat loss program. The workouts are short and intense. Anyone can fit them into a busy schedule and see results.*

**Dec. 1, 2009 - [PRLog](#) -- Fat Burning Furnace Review** – Is Fat Burning Furnace a Scam ? No, Fat Burning Furnace is our favorite fat loss program. The workouts are short and intense. Anyone can fit them into a busy schedule and see results. It also has some of the best nutrition advice available today.

The special thing about this program is that Rob Poulos isn't a regular trainer or nutrition expert, most of whom have never really been fat before, but a regular guy who has his own issues with weight, struggled for a long time, failed to lose weight with many "shady" weight loss products, and finally found a way to lose fat, gain lean muscle tissue, and has since helped many people do the same.

It is this system which became the Fat Burning Furnace course. Since that time, a lot of people have used this system and have found great success with it. However, I can't really say that Fat Burning Furnace is an Ultimate Fitness System. It's a good program, even more than good, but it's not an ultimate system or anything.

The fundamental idea behind this product is that it's one of those weight loss programs that do not ask you to go on a crash diet, but on a more rational diet. Thus, what Rob says is that you need to follow a proper diet and a recommended physical workout.

The entire fat burning furnace package is available for under \$40 at the website Fat Burning Furnace. The package also consists of 2 free eBooks, 3 months of free email support and a full money back guarantee within 60 days. The two eBooks are:

**Click Here to Visit the Official Homepage of Fat Burning Furnace**

<http://findtohealth.com/go/fatburningfurnace.com/>

- F. B. F. Tools – This eBook provides you with different types of tools to monitor the weight loss and the rate at which you are losing weight. This eBook also provides workout charts as per your requirement and the weight category in which you fall. It also includes a body fat percentage analyzer.

- F. B. F. Tactics – It talks about what food to eat and what not to eat. It talks about 15 food items that you should include and 15 that you should straightaway avoid to increase the rate at which your body burns fats. It also includes a guide to effective weight training in the gym. Weight training helps in burning fat faster and thus, the emphasis on weight training.

The Fat Burning Furnace system is a well-rounded program that will show you what you need to know to lose weight. You'll learn exercises to target specific areas of the body, there are even pictures to illustrate each exercise to help ensure that you're doing each one correctly.
