

Computer Forensics Expert David Aberman Joins Document Technologies, Inc.

Industry veteran part of DTI's expanding forensic services team

Jan. 14, 2010 - [PRLog](#) -- ATLANTA, GA – Document Technologies, Inc. (DTI), the nation's largest independent provider of on-site management services and electronic data discovery solutions, announced today computer forensics industry veteran David Aberman has joined the company as a director of forensic services. Aberman has assumed a newly created role to manage DTI's forensic services practice for the Chicago market. He is part of DTI's growing team of experts to support the increasing need for qualified data collection experts.

Mr. Aberman brings to DTI more than twelve years of experience providing a wide range of dispute advisory and complex litigation services involving numerous industries, concentrating primarily within the litigation consulting area. His specialization in computer forensic services includes data identification, preservation, and analysis of electronic data. Aberman has led investigations on behalf of external and general counsel, corporations, board of directors, audit committees and various government entities; and his experience includes investigations into the Foreign Corrupt Practices Act, theft of intellectual property, whistleblower letters, financial statement manipulation, spoliation, SEC investigations, and insider trading.

Mr. Aberman holds a bachelor's degree in accounting and is a Certified Fraud Examiner. Because of his expertise Aberman has been deposed by opposing counsel and written numerous affidavits regarding computer forensic findings. He also has spoken to various corporations, government entities and external counsel on computer forensic-related topics. Additionally, Aberman has spoken at the Computer Forensic Show, the Society of Insurance Financial Management, and the Chicago Bar Association.

DTI's forensic services/data acquisition business more than doubled in 2009, resulting in a significant expansion of the company's national e-discovery forensics consulting services, including the addition of several new certified computer examiners. As a recognized leader in forensics consulting and data acquisition, more corporations and law firms are choosing DTI to support their discovery needs. With local facilities in more than 20 major markets across the U.S. and an impressive team of industry veterans on staff, DTI is uniquely positioned to deliver responsive and cost-effective service unmatched by competitors.

DTI's growing team of certified forensics experts are skilled at proper evidence handling procedures and

follow strict protocols throughout the data acquisition process to ensure uncompromised quality and defensibility of process. DTI delivers superior processes, tools, and capacity for all aspects of electronic discovery, from forensic data acquisition to advanced file processing and data conversion to hosted review applications.
