Picrorrhiza & Phyllanthus

The Healthful Liver, Healthful Body, Herbal Dynamic Duo –

Picrorrhiza & Phyllanthus

Powerful Herbal Liver Cleansers, Detoxifiers and Toners that wipe out infections, prevent diseases and facilitate healing.

A healthy liver leads to a healthful life. The liver has many life sustaining functions in the body. It purifies the blood, removing harmful bacteria and infections. The liver removes toxins and harmful drugs from the system, while breaking down foods into proteins, carbohydrates, fats and sugars. The liver controls amino acids, fats and glucose amounts in the blood. It stores vitamins, minerals and other nutrients, releasing these life-sustaining substances as energy when needed. The liver creates bile, digests foods and it makes the enzymes and proteins that effect every chemical reaction in the body. The liver ensures hormones in the body function well, controlling the metabolic process in the body. A sick or congested liver wreaks havoc on the body, leading to diseases and the inability to effectively fight off bacteria, infections and inflammation. It is of utmost importance to ensure the liver functions in a healthful and unobstructed way. This vital organ is capable of regenerating in humans, when damaged. One of the most important things to do for health is to cleanse, detoxify and tone the liver. For every person who has any kind of disease, weight problem or health issue, I recommend a thorough liver cleansing to jump start the healing process. Once the detoxifying process is complete, I usually recommend the liver tonic, picrorrhiza, with all of its healing effects on the liver, the immune system, the digestive system, the blood, hormones, and lymph. Picrorrhiza cleans up free radicals and promotes whole body health, while metabolizing fats and carbohydrates and building protein. I highly recommend this herb to clients who suffer from vitiligo, other

autoimmune diseases and degenerative diseases such as hepatitis, HIV and cancers. Picrorrhiza is highly recommended for those with skin diseases such as vitiligo, eczema, acne and psoriasis. Many of these diseases manifest when the liver is not processing fats, carbohydrates and proteins effectively. Correcting imbalances, congestion and liver stagnation is imperative to reversing diseases and encouraging healing. Picrorrhiza is an herb I would recommend to anyone who is 40 or older, to keep the liver toned and the whole system healthy. In addition to the healing and toning picrorrhiza, I highly recommend the liver cleansing herb, phyllanthus. Phyllanthus, like picrorrhiza, is very nourishing and protective of the liver. It is a powerful liver cleanser and tonic. Phyllanthus is anti-viral, which is very helpful to those with herpes and other viral infections. Its liver cleansing, kidney cleansing, gallbladder cleansing effects are well established in Ayurvedic therapies. Phyllanthus is used to lower fevers, stop spasms, clear bladder infections, and to facilitate healing jaundice, hepatitis, HIV and to aid in healing skin diseases such as vitiligo, eczema, psoriasis and acne. Both of these herbs are useful in helping to heal vitiligo and other diseases; however, the two herbs combined make a powerful dynamic duo, working synergistically to correct imbalances throughout the body for holistic or whole body healing. For anyone who is starting therapy for vitiligo, I highly recommend cleansing and detoxifying the liver with The Liver Defense Kit and Vitiligo Herbal Skin Cream. I recommend a semi-annual Detox cleansing for anyone who has any health issue, autoimmune issue, weight problem, hormonal imbalance or degenerative disease such as cancer. I also recommend a liver cleansing Detox to anyone age 40 or older to prevent diseases and premature aging. http://thewellnesswell.net/cart/index.php?main_page=produ... Once the cleanse is complete, I highly recommend daily supplements of the herbal dynamic duo – Phyllanthus & Picrorrhiza, along with Vitiligo Herbal Skin Cream, to ensure congestion and imbalances in the body that encourage vitiligo, other skin diseases, autoimmune diseases and degenerative diseases are cleared out to facilitate permanent and rapid healing. This is a regimen I recommend throughout the healing process, with semi-annual detoxifying cleanses and supplementing with picrorrhiza and phyllanthus daily.
