

## Discover the Latest Home Decor Trends Offered at This Seasons Markets

*You will learn what the latest trends are in home decorating. You will find home decor trends that will make your home unique and trendy easily.*

**Sept. 11, 2007 - [PRLog](#)** -- While attending recent markets, we were able to see the hottest trends in home decorating and gifts. Today's home is all about decorating in your own personal style, while creating a look that is popular, such as Tuscan, Country, French Cottage, Traditional, Nautical / Beach, etc...

What do you want your home to "say" about you? Let your home decor stand for what you believe in. Let your home display your favorite things. Make your home comfortable, inviting, traditional, eclectic...

Discover what is out there, to assist you with "personalizing" your home. Whatever your preferences and theme, there is a wide range of choices to create your look. We found 4 "must have" home decor categories:

1)Word Art. Whether in ceramic, wood, vinyl, metal or stone; whether framed, on a sign plaque, sitting or hanging--this category provides one of the quickest and easiest ways to personalize. You will find a selection of single words, such as family, love, faith, etc. Vinyl wall art words and verses may be applied directly to your walls and home accessories for a professional, artistic look. Framed word art or sign plaques will provide you with words or entire verses that will express your feelings.

Look at our online home decor catalog for some great choices:

2)Wrought Iron. With the popularity of Tuscan decor, iron has become a number 1 category. You will discover wrought iron wall decor in many designs and styles. Other trendy, Italian metal decor, includes: candle wall sconces, wall pockets, plate racks, candle holders, vases and canisters. Wrought iron is also found as accents on many must have home decor accessories, from lamps, to mirrors, to frames... Just select the style that fits your look: rustic, country, traditional, modern...

3)Candles / Scents. This category amazes me! A candle is far from just a candle anymore. There are wax candles, soy candles and gel candles; pillars, tapers and tea lites--oval round and square... the color combinations are endless.

Of course, many "candles" today do not require a match. There are battery operated candles, electric candles, candle lamps and diffuser candles. We even have scented rocks, that can replace the traditional candle. Whether you want light, looks or scent, you are sure to find the right combination out there.

4)Permanent Florals. Today they look so real, you must touch them to be sure. Greenery and florals is a huge and growing category. Unusual decorative wreaths with sunflowers, berries, twigs and greenery were hits at the recent markets. Wreaths are commonly used on a door, above the mantel or wall space but they are also excellent on a tabletop for a centerpiece with candles. Seasonal wreaths for fall and Christmas continue to be in demand. An innovation that has become

extremely popular is a wreath stand. Now you can free stand a wreath anywhere.

Tuscan and country decorating loves using garlands--we found them with berries, stars, leaf greenery and floral. Greenery of every shape and style are being used this year, especially the style hang and drape down. These are a natural with the popularity of vases and wall pockets.

As you can see, there is something for everyone. This market trend report is brought to you by Belinda Crouse of [www.homedecoratingstudio.com](http://www.homedecoratingstudio.com). Operating Cotton Seed Studio in Watertown, South Dakota.
