Say goodbye to long waits for appointments and doctors' waiting rooms. At Glo we strive to ensure that your quest for a healthier, more youthful appearance is met in a relaxing, soothing atmosphere.

Whether it's unwanted hair, wrinkles or sun-damaged skin, our warm, courteous staff of licensed medical professionals are here to help you look and feel your best. Since we are physician and registered nurse owned and operated, we are dedicated to providing safe and effective treatments to our clients.

Let us show you how the latest non-invasive cosmetic procedures can make you look ten years younger...most of the time in less than one hour with no recovery time required. Our facility features state-of-the-art lasers, products and microdermabrasion techniques to leave you refreshed and invigorated.

Your visit begins with a complimentary consultation where you will meet our staff and tour the spa. This is your opportunity to tell us your skin care and beauty goals. We'll answer your questions and work together to design your personalized treatment plan.

MEDICAL TREATMENTS

We are physician and nurse owned and operated. We have chosen the following medical treatments because they provide visible results with minimal discomfort and almost no recovery time. Our services are FDA approved and administered by us or by trained professionals under our personal supervision. We are always available to answer questions and help you decide what services are right for you.

LASER HAIR REMOVAL

Say goodbye to unwanted hair! At Glo MedSpa we are proud to offer state-of-the-art laser hair removal using the Lightsheer ET laser by Lumenis. We chose the Lightsheer because it is safe and effective on all skin types.

The Lightsheer's patented cool tip makes it perfect for even the most sensitive skin. Imagine never having to shave again. There has never been such an easy, comfortable and economical solution for eliminating unwanted hair.

How Laser Hair Removal Works:

A laser produces a beam of highly concentrated light that is absorbed by pigment in multiple hair follicles simultaneously. The heat produced in the follicles prevents them from re-growing. Meanwhile, the cool tip protects and cools the skin before, during and after each laser pulse.

WRINKLE TREATMENTS

BOTOX® works by temporarily stopping the muscles that cause wrinkles. With Botox we can eliminate the frown lines and crow's feet that make you look tired or grumpy. With a 15 minute treatment you can look younger and more refreshed for up to three months.

RESTYLANE® is a safe and natural cosmetic filler that restores volume and fullness to the skin to correct facial wrinkles and folds, such as nasolabial folds. It is also perfect for defining and enhancing the lips.

Restylane is made up of hyaluronic acid, a normal component of human skin and has been used in more than 4 million treatments around the world. Because it is not animal based, no allergy testing is required. Treatments take less than an hour and results last up to six months.

PERLANE is one of the newest cosmetic fillers. Like Restylane, it is hyaluronic acid-based. However, because the gel particles are larger, Perlane is designed to treat deeper wrinkles and folds. And you still get to enjoy the results for six months!

PICTURES ARE COMING SOON!

RADIESSE is the most recent addition to our dermal filler practice. Tiny calcium-based microspheres are injected into the skin to form a “scaffold” to support and stimulate the growth of your own collagen. Over time the microspheres break down and are naturally absorbed by your body. Radiesse restores facial volume and a youthful look for up to a year. In consultation, we can design perfect treatment for you!

SPA TREATMENTS

Because your skin is unique, we offer a variety of facials and corrective skin treatments. All of our facials are customized to meet your specific needs. Gentle massage of the face, arms and neck compliment our treatments by promoting circulation and a feeling of well-being. Gentle extractions are performed upon request.

Signature Facial

Our experienced esthetician will evaluate the condition of your skin and customize a treatment just for you. We combine a cleansing, toning, exfoliation and treatment mask specific for your skin type.

Deep Clean Men's Facial

We use products designed to remove dead skin cells and thoroughly clean the pores. This facial leaves the skin renewed and balanced. Ingrown hairs and breakout-prone areas are addressed.

Clarifying Facial (Oily or acne prone skin types)

This deep cleansing is designed to reduce the skin's oil content and keep pores open and clear. Experience fewer breakouts and enjoy healthier skin by boosting cell turnover and eliminating bacteria.

Rejuvenating Facial (Dry or mature skin types)

Recapture your skin's moisture and healthy glow. Cleansing and complete exfoliation prepare your skin for the hydrating powers of a mask rich in vitamins and antioxidants.

Repair Facial (Environmentally damaged skin)

A weekend in the sun damages cells and strips your skin of vital nutrients and moisture. Restore your skin's balance and vitality with this combination of cleansing, exfoliation and antioxidant therapy.

Ultrasonic Treatment

This advanced system breaks up the skin's impurities and enables deep penetration of moisturizers and serums while increasing circulation and tone.

Suggestion: May combine with chemicals, microdermabrasion or facials.

Vitalize Peel

This is a unique breakthrough formulation of mild acids that provides a complete, consistent and safe peel with little or no "downtime" and predictable results for all skin types. Useful for sundamaged skin, fine lines and wrinkles, abnormal pigments such as melasma and superficial acne scarring.

Dermablade

Exfoliates the skin promoting cell turnover while removing velous hair
