

## Five Best Cars for Summer Camping

*AutoUSA is an online lead-referral service that connects customers, who shop new vehicles on the Internet, to over 4,000 automotive dealerships.*

**April 15, 2008** - [PRLog](#) -- Ft. Lauderdale, FL — AutoUSA, America's premier source for online customers, has announced five best cars for camping. Here is the list of 5 best cars....

The 2008 Honda Element features some of the top amenities and accessories to help you get cozy in the wild. It is available with a two-wheel drive or real time 4WD that applies more traction when needed. It offers 77 cubic-feet cargo room to fit in all the essentials for either a short or long camping trip. Its configurable rear-seating folds up and away, providing enough space for two adults to sleep comfortably on a double mattress.

The 2008 Jeep Patriot has been designed to break away from the crowd and blaze a trail to a secluded place for camping. It incorporates the right amount of towing capacity, storage and passenger comfort for a perfect camping-in-the-car experience. The Trail Rated Freedom Drive II Off-Road Package (available on Limited and Sport models) features a full-time active 4x4, off-road break traction control, hill descent control, tow hooks and increased ground clearance for the convenience of campers. The rear seats fold flat allowing room for campers to sleep in the car. Campers can pack lots of gear, equipment and other things in the 77.2 cubic-feet of cargo space.

The 2008 Chrysler Town & Country is a solid choice for camping with plenty of interior space, flexible seating configuration and impressive entertainment system. Its powerful 3.8-liter and 4.0-liter engines with trailer tow prep package can haul up to 3,600 pounds of equipment. The minivan's Swivel 'n Go feature can accommodate seating for five people around a table for a meal, while on the road. The Stow 'n Go seats create a flat surface for sleeping, playing and storing up to 144.4 cubic-feet of gear on a big trip. The interior fabric is odor and stain-resistant. The vehicle offers entertainment for family campers with its various packages and optional streaming satellite television by SIRIUS.

The 2008 Subaru Outback can reach and handle almost any terrain. It includes fold-flat rear seats that create a good bunking area, DC outlet in the rear and rubber mats for easy cleaning. It offers 65.4 cubic-feet of cargo space and optional racks for packing sports equipment and camping gear. The fuel economy of 28 mpg makes getting to remote camping spots inexpensive.

The 2008 Chevrolet Tahoe Hybrid is an ideal camp vehicle. By using its 115 volt outlet, one can power small electronics equipment without draining the battery of the car. On a full tank of gas, one can power television, coffee maker or electric grill for several days. The Tahoe offers utility with 60.3 cubic-feet of cargo space and seating for five when the third row is removed.
