**May 28, 2008** - [PRLog](#) -- Rockford Chimney Supply Inc., today announced the launch of The Online Chimney Liner Resource Guide, a new web resource that provides do-it-yourself homeowners with information and safety advice on chimney maintenance, repair, and preservation, as well as installation instructions for at-home chimney liner installation. The new resource is free to all visitors at [www.chimneylinerinc.com](http://www.chimneylinerinc.com) and helps homeowners save time and money on chimney maintenance and repair.

“Thousands of do-it-yourself home owners perform chimney liner installations each year,” said Brad White, owner of Rockford Chimney Supply, Inc. “Chimney liners are becoming popular in new chimney construction as well as for chimneys that have deteriorated over time. The new Online Chimney Liner Resource Guide gives DIY homeowners a way to understand what’s going on with their chimneys, and also what’s involved in safely completing a repair or maintenance project themselves.”

The resource is designed to provide homeowners with simple answers to not-so-simple questions. By using the Online Chimney Liner Resource Guide, homeowners can learn how to install, insulate, maintain, and feel confident about their chimney liner projects. The guide is a perfect resource for those who want to do the work themselves, or simply learn about chimney liner systems in general. The guide is very easy to use and is loaded with chimney repair information, industry terms, descriptions, photos, and live email links to Rockford Chimney Supply Inc., where users can submit questions about any aspect of their DIY chimney projects. Free consultation is also available seven days a week by calling Rockford’s toll free number at 866-708-2446.

“We can also provide users with a full-color product catalog upon request that gives them more details about the various products and components they may need for their projects,” said White. “Everything that homeowners need to safely finish a chimney project – from installation instructions to complete chimney liner kits – is available in one place on our web site.”

The new Online Chimney Liner Resource Guide is also available to professional installers who need additional advice or just want to use the guide as a great value-add to their own services. The guide is available for download at [www.chimneylinerinc.com](http://www.chimneylinerinc.com).
