

Soft Sided Dog Crates, Soft Dog Crate, Fabric Dog Crates, Folding Dog Crates

Traveling with your pet has never been easier. Get the best designed soft sided crate on the market and get on the go with your favorite pooch!

Sept. 18, 2008 - [PRLog](#) -- The Mighty Mite Super Set Dog Tent is the first soft sided fabric dog crate on the market that utilizes the best features of a tent without that “boxy” tent shape.

<http://www.mightymitedoggear.com/dogtent.html>

You can use your regular crate pads, and your dog can stretch out but the crate will fold up into a tiny tent size bag! Swing it over your arm and you're good to go! Comes in three sizes and even the largest size is less than four pounds! With such lightweight portability – you won't go back to any other kind of dog crate!

Our Mighty Mite Dog Tents also feature our patented super-set technology. The poles are integral to the tent fabric and set up together, much like unfurling an umbrella. So easy, snap, snap snap and your dog crate is up! No fighting with stiff poles, no lugging around extra parts.

Tons of extra features make this the easiest dog crate you have ever used. Side pockets are on three sides to allow you to stow all your pet essentials. Mesh screening is at shoulder height, so your dog can't dig out!

The curved roof allows for greater head room. The zipper zips “upward” to inhibit scratching the zipper opened. It will be obvious from the get-go that this dog crate was designed with dogs in mind. In fact, not only was the design made specifically for dogs, it was tested by real dogs and their owners. Their feedback went into every inch of the design.

If you and your pooch are ready to get on the go, the Mighty Mite Super Set Dog Tent is ready to go with you!
