

Disease cannot live in a alkaline environment! GET YOUR LIFE BACK TODAY! NO MORE LIES!

Please hear what I have to say. It could mean the difference of life or death to someone's child, mother, father.

Dec. 9, 2008 - [PRLog](#) -- Disease can not live in an alkaline environment!!!!

Hello my name is Darryl William Crawford,

Please hear what I have to say.

It could mean the difference of life or death to someone's child, mother, father.

My mother Naomi Crawford died from breast cancer back in 1996.

That was hard on me and her other sons, family and friends. It was the worse feeling I've ever felt. Through the years God gave me strength and wisdom to become more of a man and to let her go.

I was blessed to receive information about how the body can heal itself if put in the right environment. On top of that I was thrilled to know that there are cancer survivors who shared their testimonies to me about how they drank this Kangen Water which helped their body become more alkaline so that the body could heal properly.

DISEASE CANNOT LIVE IN A ALKALINE ENVIRONMENT!

Had I known this back in 1996 or before my mother would be here now. However, the truth is she isn't here and there are many who need to know this information.

Please if you have a heart send this information to as many people as you can that have cancer.

It could mean more years to someones mother, father, child or a whole family.

I will post the audio testimonies below and the videos below so you can see what I've learned.

And anyone wants to know how to get this amazing miracle water, call me at 215 224 0293 or if you call Monica (my partner) at 210-658-7639 just mention Darryl sent you and she'll know what to do, we're a team and serious about healthy living.

Thank you and God bless America and every everyone else

Darryl Crawford
