Feb. 5, 2009 - [PRLog](#) -- Trading veteran John Person has recently released a new, educational DVD course detailing the use of candlestick and pivot point analysis in options trading. In his 90-minute-plus presentation, he shows traders how to capture an edge by explaining patterns that he actually developed and currently uses in his own trading.

As President Obama and Congress attempt to hammer out a new plan to stimulate the economy, companies are releasing earning reports that are mixed, at best. With all of the uncertainty, trading remains choppy, and educating yourself remains the best way to stay ahead of the game. Person's new DVD comes at an opportune time for traders to discover the power of candlestick and pivot point analysis in today's markets.

Person has studied technical analysis for decades and has waded through a huge list of approaches to find the indicators and patterns that work. Here, he will teach traders how pivot point analysis can be used for forecasting, filtering, and determining market conditions. He will also define the construction of candlestick charts, share his popular and powerful reversal patterns, and teach you to read setups and triggers from candle charts. An in-depth discussion of doji patterns, the integration of seasonal patterns, and past price action take these tactics to the next level, providing target ranges in which to trade.

John Person began trading on the floor of the Chicago Mercantile Exchange in 1979 and has worked his way through the industry as an independent trader, broker, analyst, and branch manager for one of Chicago's largest discount/full service firms. He is the former owner and President of First National Futures Group, Inc. and the author of several best-selling books, including *The Complete Guide to Guide to Technical Analysis for the Futures Markets*, *Candlestick and Pivot Point Trading Triggers + CD-ROM: Setups for Stock, and Forex*, and *Futures Markets, Forex Conquered: High Probability Systems and Strategies for Active Traders*.

John Person's new DVD course, *Candlesticks and Pivot Points*, and his other publications are available at the lowest prices at www.traderslibrary.com.
