Quality, Selection, and Service Fused Into The Luxurious Hair Boutique Synthetic Lace Front Wig Collection.

March 28, 2009 - [PRLog](#) -- Syracuse, NY – Some women know what it feels like to find a Lace Front wig that complements them like no other. On the other hand, many women know how it feels to have a limited selection or subpar service stand in the way of finding a Lace wig that is an ideal match. The launch of The Luxurious Hair Boutique Signature Collection of Synthetic Lace Front Wigs means one more resource available for women looking for just the right Lace Front wig at an affordable price.

The Luxurious Hair Boutique (LHB) specializes in premium full lace wigs, custom lace wigs, and lace front wigs. Quality products, an extensive selection, and superior customer service are all things that LHB customers expect. The company's wig selection includes the likes of brands such as: Raquel Welch, Eva Gabor, Beverly Johnson, Bobbi Boss, as well as other notable collections.

In addition to its wig offerings, the company launched its very own Signature Collection of Synthetic Lace Front Wigs, which was an instant smash and sold out within a week of its release. The newest addition to the collection is set to release January 8th, 2009.

The LHB Signature Collection™ is constructed with the latest innovative synthetic fiber "Natura". The fiber is the first to be heat resistant as well as flame retardant and is the perfect way for women to get the natural look and feel of a human hair lace front wig for an affordable price.

The company points out that regular synthetic hairs such as PVC and Modacryl can only endure up to 100 degrees of heat; therefore, they can't be used in conjunction with hair dryer or hair iron. And although polyester hairs can withstand heat of up to 170 degrees of heat, when the hair iron is used repeatedly, frizzing occurs, destroying the original capability of the hair itself. "Natura" has solved this problem and made it very safe to use resulting in a Synthetic Lace Front Wig like no other.
