When an alarm is triggered, the Personal Assistance Voice Dialer will sound a built-in 85dB siren (we also have systems without the alarm, see our online product catalog) and call up to four telephone numbers (911 can be entered also).

It then plays a message that you record and allows the person receiving the call to listen in.

100 Foot range between pendants and panic buttons and unit.

The system will continue dialing until the person receiving the call enters 0. Answering machines will not fool it.

Sets up in only 5 minutes! Easy to Use!

Simply plug it in. Program the voice message, the numbers you want it to dial, place the pendant around the

loved one, run a test - then you're all set to go!

In an emergency, your loved one will simply need to press the button on the heart pendant. Sounds siren & calls 4 telephone numbers you select (ie. neighbor, friend and relatives.) Included with the Personal Assistance Voice Dialer System is One (1) Heart Pendant and 3 Wireless Panic Buttons.

**OPTIONS:**

Add an Additional Heart Shaped Pendant (up to 8)

Add a Wrist Watch Panic Button (up to 8)

(Big Red Panic buttons and Wrist Watch Panic buttons operate exactly like the pendant with the same 100 foot range)

In an emergency, push the button on the pendant or panic buttons and it will send a RF (radio frequency) signal to the main console, which will trigger an alarm and call for help.

No monthly monitoring fees!

.  
Installs within minutes!

.  
AC-powered with battery backup (system will operate up to 20 hours on battery backup)

1 Year Warranty

Wireless Waterproof Heart Pendant

Note: This system WILL work with VOIP systems like Comcast digital voice, Vonage and Magic Jack.

Customer Comments:

---

"This product is the best every elderly person should have one!!!!!!!!!"

---

"Thank you, and may God bless. Technology awes me and I, too, hate to see people who need this helpful monitor to live safely at home alone. I'm certain I will be ordering another one very soon for my aunt. Later I may be able to donate a monitor to someone else as I am with my family members. Being a caregiver has it's blessings....just as what you sell blesses so many. B. Davis"
