

how to Unformat SD Card Data Recovery, Recover Unformat SD Card Data,

unformat SD Card,unformat SD Card drive software,free download unformat SD Card drive software,help you unformat your hard drive easily.

March 16, 2010 - [PRLog](#) -- SD Card-A SD Card (Secure Digital Card) is an IC (Integrated Circuit) which is stored in a compact and rugged plastic enclosure.The SD Card standard was introduced by Toshiba, Matsushita Electric, and SAN DISK.SD card, short for Secure Digital card, is a highly-sophisticated and non-volatile memory card format developed by Matsushita, SanDisk, and Toshiba for use in portable devices. It is available in standard and high-capacity formats along with a variety of speed classes.The capacities of Standard SD card range from 4 MB to 4 GB, and for high capacity SDHC cards from 4 GB to 32 GB as of 2008. Announced at the 2009 CES a new specification (SDXC) (Extended Capacity) will allow for 2TB capacity cards. For example, a camera stores images digitally rather than record them on film. Once a picture has been taken, it can be downloaded to a computer system, and then manipulated with a graphics program and printed. And SD card in camera is used for image storage.

Besides, using decoder software, a SD compatible device can play music, video clips and more without a drive mechanism like those in CD and DVD players. This allows the equipment to be more compact and gives product designers new creative freedom. Reliability is also improved through the elimination of skipping on music and video files.

So, as the widely use of SD card, data loss from SD card also happens in our daily life, among which, losing data due to format is a common situation. If so, you need reliable data recovery software to perform SD card format recovery. diskgetor Data Recovery software is the best choice for computer users to do SD card format recovery under Windows environment.

If not,you can download unformat SD Card software like Diskgetor data recovery. if you want know more about unformat sd card data recovery informations, please check <http://www.diskgetor.com/>
