

Mathnasium + New Hyde Park = Success

Mathnasium is a math learning center where we help children understand math, rather than just memorizing math. We make math make sense to kids.

Dec. 30, 2011 - [PRLog](#) -- New Hyde Park, NY – December 30th, 2011 -- Mathnasium, a math-only learning center for children, has opened its newest location in New Hyde Park at 1003 Jericho Turnpike.

“It is very exciting to be part of an amazing program that will help the kids of our community succeed by offering them an opportunity to develop a better understanding of math concepts,” said Peter Abrams, Center Director with Mathnasium of New Hyde Park. “Our goal is to eliminate the confusion and intimidation that often accompanies the subject of math and replace it with understanding and passion.”

Mathnasium’s program is for students in grades two through twelve who may need to boost their math skills or need an extra challenge. In addition to math tutoring, homework help and test prep are available. Mathnasium’s approach is to determine what a student knows and does not know, then tailor a personalized and prescriptive learning program. The goal is to significantly increase a child’s math skills, understanding of math concepts, and overall school performance, while building confidence and positive attitude toward the subject.

Mathnasium of New Hyde Park is hosting an open house on Monday, January 16, 2011 (Dr. Martin Luther King Jr. Day) to introduce its services to the community, and show local residents they can “count” on Mathnasium to forge a positive attitude towards math among area students.

The open house will take place from 12:00-5:00pm at Mathnasium of New Hyde Park located at 1003 Jericho Turnpike. This is a chance for parents and children to see how Mathnasium can help boost a student’s math skills and understanding of math concepts. “Math can be very intimidating to both parents and children, so we hope the open house will show how the Mathnasium Method makes math fun and interesting.” said center director, Peter Abrams

In celebration of the grade opening in New Hyde Park, Mathnasium will waive the student assessment & learning plan fee (normally \$99) throughout the month of January, 2012. “We want parents to be able to see the assessment process and get a feel for the center without any financial obligation or pressure.” said Abrams

For more information about Mathnasium of New Hyde Park, please contact Peter Abrams at 516 616-6284 or newhydepark@mathnasium.com.

About Mathnasium: Mathnasium Learning Centers specialize in teaching kids math the way that makes sense to them. Students go to Mathnasium year-round to catch up, keep up, and get ahead in math. The results are a significant increase in math skills, a better understanding of math concepts, and better school performance. The proprietary Mathnasium Method™ is the result of 35 years of hands-on instruction and research. Franchising since 2003, Mathnasium has become one of the fastest growing educational franchises, with a new center opening each week. There are more than 250 Mathnasium locations in North America, South America, Europe, the Middle East and Asia. www.mathnasium.com
