

Swiftlane Expands Into New San Francisco Headquarters

SAN FRANCISCO - Feb. 9, 2022 - [PRLog](#) -- Swiftlane, a cloud-based smart access solution for multifamily communities, expanded its headquarters into a new, larger office space in the heart of downtown San Francisco. The company has seen tremendous growth over the past year due to the industry demand for reliable access control and security solutions that elevate the resident experience, reduce the operational burden for management, and ultimately increase revenue for building owners. In the past year, Swiftlane has seen 17.5x growth in number of customers, 6x growth in total revenue, and 4.5x growth in total ARR.

"At Swiftlane, our vision is to provide smart access technology that solves real issues in the multifamily industry," said Saurabh Bajaj, Swiftlane CEO. "It's our goal to make smart access solutions accessible to every building to enable safer resident experiences and help owners and managers maximize NOI."

Swiftlane is focused on solving the major challenges and pain points for the multifamily industry, which include tenant safety and satisfaction, investment profitability, and operational efficiency for property managers. Swiftlane's end-to-end access solution allows property managers to remotely manage security for all their communities under a single unified operating platform.

About Swiftlane:

Swiftlane is a cloud-based access control and video intercom security system designed for multifamily residential, commercial buildings, and offices/enterprise. Headquartered in the San Francisco Bay Area, Swiftlane is a VC funded startup that offers touchless face recognition, mobile unlock, two-way video intercom, PIN access, and key cards — all in one system.

Swiftlane is the winner of the Access Control Software, Hardware, Devices & Peripherals – Wired category award in SIA's 2020 New Product Showcase. Swiftlane was also selected as a 2021 Architizer A+Product Awards Special Mention in Innovation. Not only does Swiftlane close the gap by solving problems that legacy access control systems are not equipped for, it increases NOI for building management and owners and gives tenants the #1 amenity they want: peace of mind.
