

Swiftlane Releases "Hey Siri" Voice-Enabled Door Unlock

Open doors using just your voice with hands-free "Hey Siri" door unlock feature.

SAN FRANCISCO - April 7, 2022 - [PRLog](#) -- Swiftlane, an end-to-end smart technology solution, recently released a hands-free experience with voice-enabled door unlock, which gives the option to unlock doors, gates, and garages by using just your voice. If you're an iPhone user who has Siri enabled within Apple iOS, you can add your door to Siri and just say, "Hey Siri, unlock door" when you're in close proximity.

Swiftlane is the only access control company offering a complete all-in-one cloud-based smart access solution that includes face recognition, mobile unlock, key card capabilities, visitor and delivery management, and a simple, intuitive admin dashboard.

"At Swiftlane, our vision is to provide smart access technology that solves real issues in the multifamily industry," said Saurabh Bajaj, Swiftlane President and CEO. "It's our goal to make smart access solutions accessible to every building to enable safer resident experiences and help owners and managers maximize NOI."

Swiftlane is a remote-first operating solution that offers a single platform for managing one building or hundreds. Seamless, cloud-based tools relieve operational burden and give full visibility into what's happening at any building, community, or property.

ABOUT SWIFTLANE

Headquartered in the San Francisco Bay Area, Swiftlane is a VC funded startup that combines convenience and high security to ensure every community is a safe, desirable place to live. The cloud-based end-to-end smart technology provides access to every point in a building using face recognition access, mobile access, video intercom, visitor PINs, key card access, and voice-enabled unlock.

Swiftlane is the winner of the Access Control Software, Hardware, Devices & Peripherals – Wired category award in SIA's 2020 New Product Showcase. Swiftlane was also selected as a 2021 Architizer A+Product Awards Special Mention in Innovation. Not only does Swiftlane close the gap by solving problems that legacy access control systems are not equipped for, it increases NOI for building management and owners and gives tenants the #1 amenity they want: peace of mind.
