

SS United States To Be Sunk For Fish Reef in Florida, America Lost Her Ship Movie to Depict

Triumph Donnelly Studios shall depict her amazing service for America, her berthed years and all of the people that refused to Save our Great Ship for Greed & Money...

TUCSON, Ariz. - Oct. 3, 2024 - [PRLog](#) -- Triumph Donnelly Studios News

Release: Yesterday the Penn Warehouse Company, the SS United States Conservancy, the Court and the County in Florida that purchased our Great Ship Okaloosa have signed a tentative agreement to "sink our Great Ship for a fish reef, so the County and local businesses can make money". This is not only a "sin" to sink America's Flagship so fish can have a reef and others can make money off is her. Our Great Ship served her Country very, very well, from Presidents, Movie Stars and more over the years via her Trans-Atlantic speed which still today are record setting. Many people, organizations and Triumph Donnelly Studios fought the good fight to save our Great Ship, locate a new berth so she could be a hotel, casino, condos, retail and more, rather these people only see her as a fish reef in Florida and have destroyed her future which would have given jobs, local taxes and remain America's Great Ship. England saved their Queen Mary 2 in Long Beach, CA yet America could not save her Great Ship from Greed and a lack of history now lost forever.

The movie shall "state all of the people involved that sunk our Great Ship under the First Amendment our Great Ship shall never be forgotten." Thank you as well for all who fought to save our Ship, your fight was seen by God as well. The movie docks in 2026 from Triumph Donnelly Studios Corporation.
